

SHASHIDHAR P

Cloud Engineer

9019884212 | shashidhar.gowdap@outlook.com | Bengaluru

<https://p-shashidhar-gowda.github.io/portfolio-website>

CAREER OBJECTIVE

Computer Science graduate with a strong foundation in programming, software development, and problem-solving. Skilled in Java, Python, and backend fundamentals, with hands-on experience in building scalable applications and working with cloud-based systems. Seeking an entry-level Java Developer role to contribute to application development while strengthening expertise in object-oriented design and backend engineering.

TECHNICAL SKILLS

Programming:

Java (Core Java, OOP, Collections, Exception Handling) | Python | Bash

Backend & Tools:

REST APIs (basic understanding) | Git | Maven (basic)

Cloud & DevOps (Supporting Skills):

Microsoft Azure | AWS | Docker | Kubernetes | Terraform | Jenkins

Operating Systems:

Linux (Ubuntu)

Database (Basic Exposure):

SQL fundamentals

Networking:

TCP/IP | DNS | Subnetting

INTERNSHIP EXPERIENCE

ATAS Infrastructure and Security Engineer trainee	Feb 2026 – Present
INTELLIPAAT SOFTWARE SOLUTIONS Azure Cloud and Dev-ops Intern	Feb 2025 – Feb 2026
IBM & IIT Guwahati Cloud Application Developer Intern	Nov 2024 – Feb 2025

PERSONAL PROJECTS

Multi-Region Azure Web Hosting

- Designed and deployed a high-availability multi-region Azure architecture using Traffic Manager and Application Gateway for intelligent routing
- Implemented failover strategies, custom routing rules, and health probes to ensure fault tolerance, resilience, and consistent performance

Scalable Web Hosting on IBM Cloud

- Built a scalable cloud hosting solution using auto-scaling groups and load balancing to efficiently handle dynamic traffic workloads
- Configured dynamic scaling policies, monitored resource usage, and optimized performance to maintain high availability and cost efficiency

Kubernetes & NGINX Deployment

- Deployed and managed a 3-node Kubernetes cluster running containerized NGINX applications with multiple replicas for load distribution
- Configured NodePort, ClusterIP, and Ingress controllers to enable efficient service exposure, traffic routing, and external access

Phishing Website Detection (Machine Learning Project)

- Developed a machine learning model in Python to classify phishing and legitimate websites using feature extraction and preprocessing techniques
- Improved detection accuracy using ensemble methods and pattern recognition for enhanced cybersecurity threat detection

EDUCATION

BACHELOR'S DEGREE	Computer Science and Engineering VTU	CGPA 7.54	2021 – 2025
PRE-UNIVERSITY	Shree Swaminarayan PU college	KSEAB 83.4%	2019 – 2020
HIGH SCHOOL	Bethel International Public School	ICSE 76.67%	2019

CERTIFICATIONS

Advanced Certification in Cloud Azure and DevOps | IIT Roorkee and Intellipaat

IBM Cloud Hosting & Auto-Scaling | IBM in collaboration with IIT Guwahati

Linux System Administration | Udemy

Life Skills (Jeevan Kaushal) 2.0 | Wadhvani Foundation
